Hi Rusty!

I'm stuck doing event walk throughs right now but I wanted send you at least some of the information on the event.

Attached is the agenda that will be distributed to the audience at the event. We are NOT releasing the agenda publicly.

The event is open press and I believe our communications director is in touch with Laura.

We will be video recording the event to post short clips at a later date on our website and on social media networks.

We've also hired a photographer for the day and can share with you all the photos.

Our team is planning to post live Secretary Zinke a few other portions of the event on Facebook live.

We're expecting a full house - 250 attendees representing the business community, think tanks, academia, press, federal and state government staff. This event is by invitation only and considered a private event.

Let me know what else you may need.

Thanks!  
Leila
